

**Photo Standards Digital photographs of fish submitted to judges for scoring must meet these criteria:**

- Legible. Photo must be clear enough to read identifier and judge the length accurately.
- Official LCKCF identifier placed where it does not cover the fish's eye or prevent measurement verification. An image of the unique identifier on a smart phone is not acceptable.
- Competitor's kayak clearly visible
- Fish, as depicted below:

- Facing left on a Hawg Trough, left side of the fish visible, dorsal fin toward the top of the photo
- Mouth completely closed with jaw and/or lips touching the Hawg Trough "fence." Position camera lens directly over the center of the bass' body to aid judges in determining that fish's mouth is closed and in contact with the fence. Photos judged to have been taken deliberately at an angle in order to make the fish appear longer may be disqualified at the Tournament Director's discretion.
- Tail centered and in a relaxed, un-pinched condition.
- To confirm that the fish is alive, the fish's eye must be uncovered in the photo. Photos of fish that appear to be dead, mutilated, frozen or similarly damaged will be disqualified without scoring. Photos of fish that appear to have been mangled, mashed, mauled or otherwise altered in ways that increase their length will be disqualified or approved for scoring at the discretion of the Tournament Director.
